### Alma Mater (Formal)

Oh, hail to Alma Mater  
Dear mother of us all  
We sing thine every glory  
Within thine ivied walls  
We love thy hallowed places  
Revere thy honored goals  
Oh, dear Duquesburg Central  
And the purple and the gold

### Alma Mater (Informal)

Oh, let us sing tonight  
And cheer the merry throng  
And inspire our team to victory  
As we sing our battle song  
It will always be our rule  
To fight with courage bold  
For the dear Duquesburg Central  
And the purple and the gold

**ADMINISTRATION**

## Superintendent Of Schools

Congratulations to the Class of 1967 on the completion of your academic high school studies. As you go forward in this challenging era I am sure that you will be called upon to use all the ability and knowledge that you have acquired during your school years. For those of you who go on to college and further education may your studies prepare you well for the additional challenge you will meet as college undergraduates and graduates.

John H. Fink

## Principal's Message

The members of the Class of 1967 have attained a significant milestone in their personal history. Graduation from High School is a basic educational achievement, attainable by those who persevere through the many years of elementary and secondary schooling. You are entitled to be congratulated. The faculty and I are delighted to do so.

It is hoped that the act of graduation symbolizes the completion of your first and basic approach to the process of thinking. To date, you have within the confines of the school system, absorbed facts, pondered elemental problems and made various decisions. A background for thinking has been established.

Every class is told that it is graduating into a world where great decisions must be made and difficult tasks lie ahead. The Class of 1967 is no exception. There are great decisions to be made by your generation. There are difficult tasks to be done in the future. It will take much work and much thought to foster the continued progress of mankind. Henry Ford once said: "Thinking is the hardest work there is, which is the probable reason why so few engage in it." You have been prepared to think. Will you, the Class of 1967, be among the "few" who "engage in it?"

*Stephen E. Cornthwaite*

## National Honor Society

The staff of the 1967 Dusquanox would like to pay a special tribute to the National Honor Society. The Society received its charter in 1944. Since its chartering, membership in the National Honor Society has been one of the most coveted honors at Duanesburg Central.

The qualifications for membership in the National Honor Society can best be expressed by the Pledge taken by every Honor Student:

I do solemnly pledge that I will faithfully follow to the best of my ability the four precepts of the National Honor Society - Character, Service, Leadership, and Scholarship. I will ever keep before me the ideal of helping to raise the scholarship of Duanesburg Central School to higher and higher levels. I will try at all times to conduct myself in such a way that my actions in and out of school shall reflect pride in the school I represent.

# Ohio Northern Choir Sings At Duaneburg

On March 20 the Ohio Northern University Chorus-Choir, under the direction of Dr. Karl Roider, presented a program in the High School Gymnasium. The program was attended by several hundred people from the community.

This group was brought here through the efforts of one of our own ex-students, Maxine Terpening. She is now a member of this chorus-choir.

## Dedication

Mrs. Muriel  
Chatterton

We, the Class of 1967 feel that we are greatly indebted for the kind services and patient training of our kindergarten teacher, Mrs. Chatterton. We know that her unflinching efforts on our behalf have started us on the road to success and have rewarded us a hundred-fold during our last twelve years.

As the first class at Luanesburg Central to be taught by Mrs. Chatterton, we feel privileged to dedicate to her, this Dusquanox.

# Dedication

Mr. Floyd  
Davis

We, the Class of 1967, have come to know Mr. Floyd Davis, Jr. as a truly competent teacher, whom we highly respect. He has had the ability not only to impart knowledge to us, his students, but also to cause us to want to seek that knowledge for ourselves.

During the past three years, each of us has come to regard him personally as a wise counselor and a close friend. His guidance and patience with us has helped prepare us **to face each new responsibility in the future with confidence.**

Therefore, Mr. Davis, the Class of 1967 wishes you many more happy and successful years in your chosen profession and gladly dedicates Dusquanox 1967 to you.

(Censored)

'All right, who did it?"

Victory!!

"Et tu Brute?"

ORGANIZATIONS

# ORGANIZATIONS . . .

Build friendship and fellowship; create interests and stimulate growth. Our high school education lies in more than books and classroom instruction; it is built also from our pleasant participation in school activities.

## International Relations Club

The purpose of the International Relations Club is to foster better understanding and appreciation of all countries including our own.

## Math Club

The Math Club provides a student with the opportunity of discussing topics not normally found in regular high school Math studies.

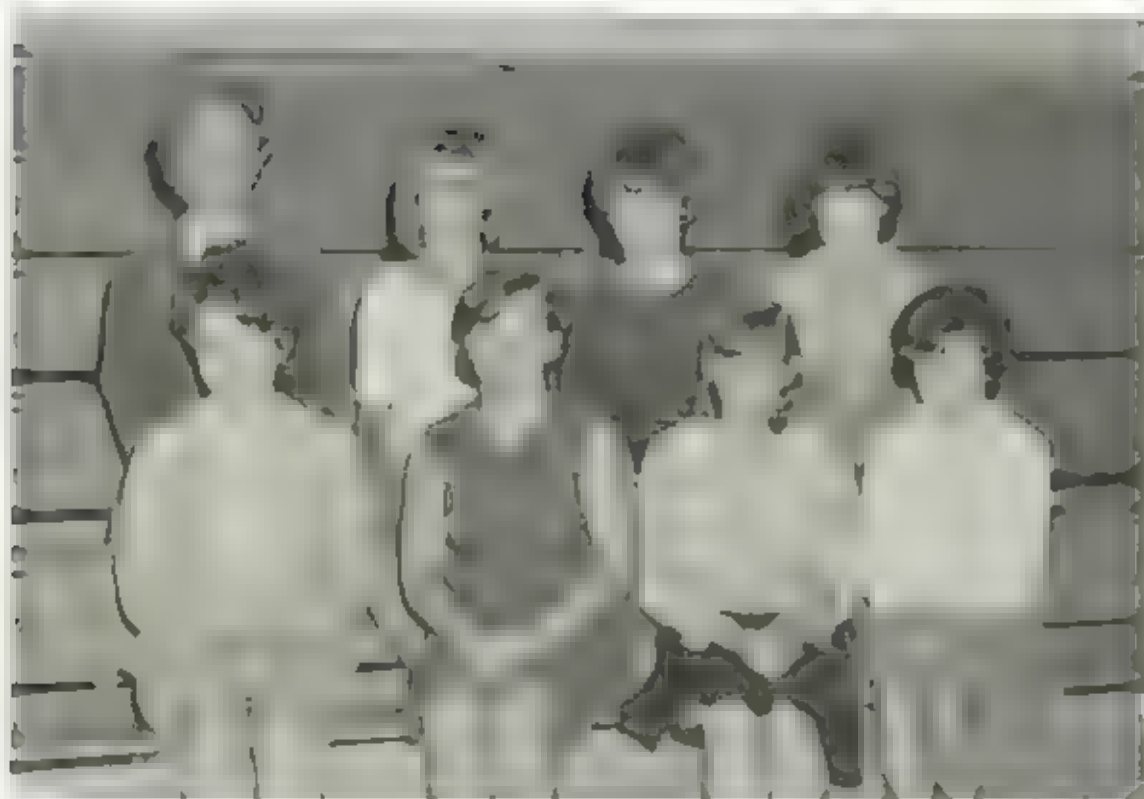

## Student Council

The Student Council serves the school as an advisory body. The Student Council provides a means by which the students may express their ideas to the Faculty and the Board of Education.

## Future Homemakers of America

The F.H.A. is a club whose purpose is to promote the joys and satisfaction of personal home and community living, now and in the future.

## Fire Patrol

Directed by Mr. Ferrone, the Fire Patrol was established to help evacuate all students during fire drills and in the event of a real fire. The duties of the Fire Patrol are slight but necessary for our school safety.

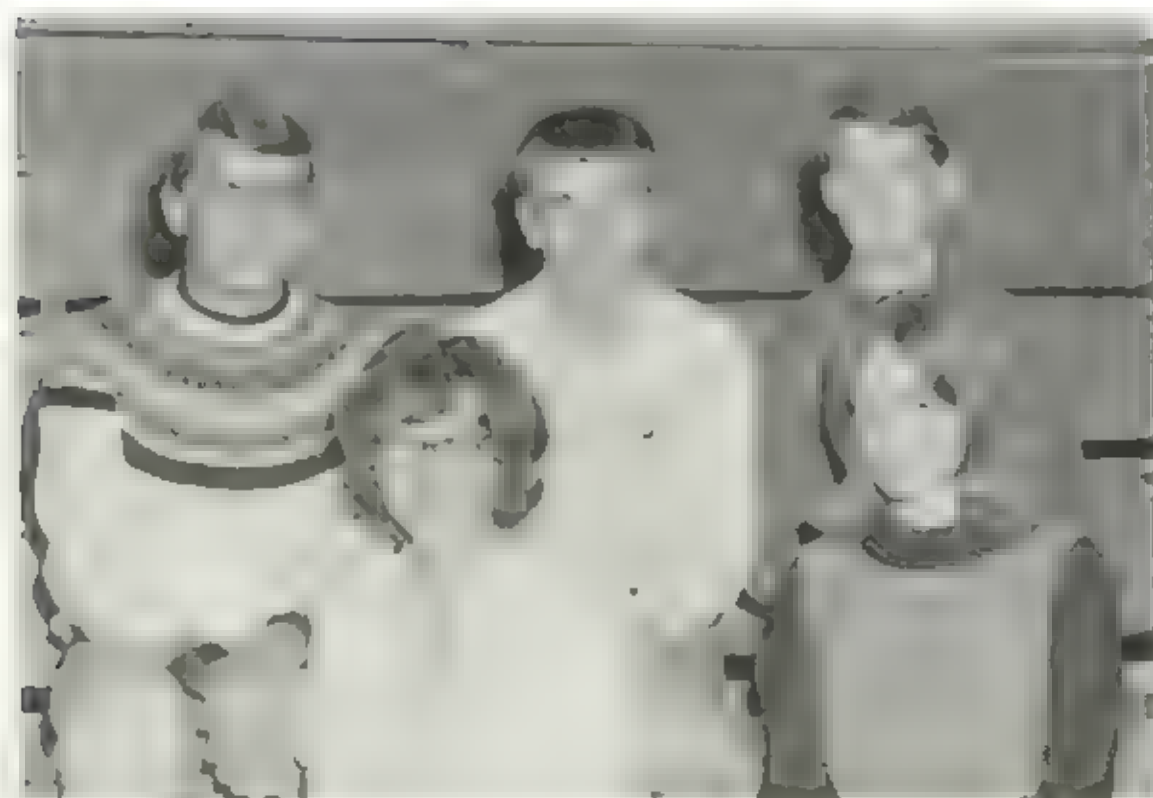

## Technical Club

The Technical Club sets up equipment for dances and assemblies. This includes setting up microphones, keeping records and record players, and operating stage lights.

## Office Assistants

The girls assist the office by acting as receptionists, delivering messages, and operating the duplicating machines. The boys' duties are to dismiss the busses.

## Athletic Association

The purpose of the Athletic Association is to provide scorekeepers, timekeepers, team managers, and ticket sellers for Duanesburg Central's athletic pursuits.

## Projectionist Club

This club takes care of audio-visual equipment. This activity includes setting up and operating projectors.

## Y-Teens

The Y-Teens was organized for the purpose of promoting friendliness and understanding between girls of all races and religions. The club holds money raising activities after which it contributes to charitable organizations.

## Girls' Basketball

## Newspaper Club

An endeavor into the field of journalism, the Newspaper Club informs the student body of local news.

## Ski Club

Braving the thought of black and blue marks, the Ski Club travels to many ski centers in New York State and New England.

## Girls Athletic Association

The Girls Athletic Association provides a chance for the feminine part of the student body to compete in intra- and inter-mural sports.

## Junior Band

The Junior Band is composed of the younger set of musical geniuses in grades six and seven.

## Dance Band

The Dance Band provides a chance for interested young musicians to play popular music.

## Junior Choir

The Junior Choir teaches young voices the qualities needed for membership in the Robed Choir.

Brass Section

## Uniformed Band

The Uniformed Band has had the unique experience this past November of playing the Overture and Finale for Camelot, the recent success of the Drama Club. The Uniformed Band also marches and plays in several parades in the area. It is conducted by Mr. Mason.

## AN OPEN ROAD . . . OR A DEAD END STREET?

When commencement is over, where do you go from there?

Not too many years ago, a high school education was sufficient for most jobs; college was almost a luxury except for those who planned careers in such fields as medicine and law.

Today, the pattern is entirely different. Advances in technology affect everyone in every business . . . and, frankly, a high school education is seldom enough to equip you to meet the challenge of the present . . . to help you get a job with a future.

What's the answer? More education . . . four-year colleges, junior colleges, community colleges, technical schools, extension courses, anything at all which will increase your knowledge, develop your personal skills.

There are jobs waiting . . . but these jobs call for knowledge and skill. Gen-

eral Electric is just one of the many companies which will have job openings in the years to come for those who can meet job requirements. There are new products, new technologies on today's drawing boards . . . with still others yet to be thought of . . . which will call for people with education, training and ability. The future needs not only men and women to come up with ideas, but also people to put those ideas into practice . . . designers and developers, scientists and salesmen, technicians and teachers . . . people with sufficient education to fill jobs.

Now it's up to you. You may choose the broad highway open to you through more education . . . or wander down the dead end street of lost opportunities. If you keep learning, you'll keep growing . . . growing with our nation in the age of space.
